

# HUR SmartTouch

Train and track the people you care for – **your customers.** HUR SmartTouch is the perfect combination of **pneumatic strength training equipment and operating software**, and is especially developed for senior exercise, rehabilitation and the 40+ wellness markets.

HUR SmartTouch

## For the trainee

- Easy, safe and ergonomic exercise with pneumatic strength training equipment.
- Dual-function equipment with touch screens that displays repetitions, load, seat and lever arm position, animated instructions and heart rate
- Automatic electronic set-up of machine: load, repetitions, seat and lever arms
- Start training at the first machine, no need to log in or out
- **Independent training: RFID as identification with own personal exercise or rehabilitation program**
- Stores and visualises progress and training programme in personal online/mobile profile
- Close to zero starting load
- Automatic resistance increase as client progresses
- 100g / ¼ lbs. increments
- Own customer online/mobile profile
- Messaging between operator and client

**Did you know?** HUR has a 25 year history in developing and manufacturing computerised exercise equipment – making HUR SmartTouch the 4th generation of machines and software.

HURSmartTouch

## For the operator

- Modern web-based software for clinic and centre operating – operation wherever, whenever
- **Provides the metrics and data to track performance of the clinic or centre**
- Saves staff resources through independent exercise
- The rotation proceeds from one machine to the next one in a precise order – less queuing at the machines.
- Cloud based or local installation
- Supports multi-clinic and centre organizations
- Automated reporting of client's progress, facility status, equipment usage etc.

HURSmartTouch

## For the instructor

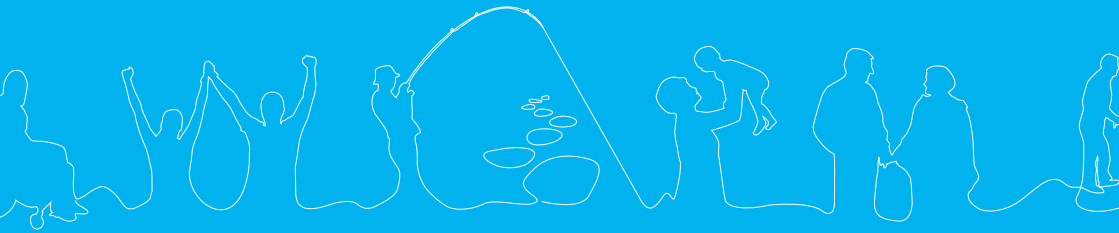

- **Speeds up the introduction of new members and eliminate paperwork and mundane tasks**
- Increases resistance automatically as the client progresses
- Provides documentation needed to track the progress
- Frees resources of the instructors to focus on the clients who really need the assistance

**Enhance the training experience – operate wherever you need and whenever you want – operate more efficient and save staff resources – simplify the work for the instructors.**

HUR is dedicated to contributing where it is best – providing the best exercise solutions for preventive, rehabilitative and maintaining training – so that you and your customers can keep on performing miracles every day.
